

K8 tiene el agrado de presentar la nueva línea de termodecoraciones design que es testigo del empeño de la sociedad y de su cuidado en el ofrecer a sus clientes soluciones modernas y cautivadoras con formas rebuscadas y refinadas. Son productos que saben valorizar el ambiente y todo tipo de arquitectura, con estilo y elegancia y que subrayan el gusto de las personas que los eligen. Realizados en acero para durar pero con un corazón de aluminio extruido que facilita el intercambio térmico y acelera los tiempos de calefacción.

K8 est honorée de présenter la nouvelle ligne de design des éléments thermiques d'ameublement qui témoignent l'engagement de la société et son attention en ce qui concerne l'offre à ses clients de solutions modernes et captivantes, aux formes recherchées et raffinées. Il s'agit de produits à mesure de valoriser toute ambiance et architecture, qui donne une impression de style et d'élégance, et qui témoignent du goût de celui qui les choisit. Réaliser en acier afin de durer ans le temps mais avec un âme en aluminium extrudé qui facilite l'échange thermique et accourcit les temps de chauffage.

K8 is honoured to introduce the new line of thermal furnishing unit design, witnessing the company commitment and its attention to offer its customers modern and alluring solutions, with refined and updated shapes. These products aim at enhancing any ambience and architecture, with a new style and elegance imprint, but witnessing taste of people selecting them. In steel to last in time, but with an extruded aluminium core easing the thermal exchange and making heating quicker.

K8 è lieta di presentare la nuova linea di termoarredi design che testimonia l'impegno dell'azienda e la sua attenzione nell'offrire ai suoi clienti soluzioni moderne ed accattivanti, dalle forme ricercate e raffinate. Sono prodotti in grado di valorizzare ogni ambiente ed ogni architettura, che danno un'impronta di stile e di eleganza, e che testimoniano del gusto di chi li sceglie. Costruiti in acciaio per durare, ma con un cuore in alluminio estruso che facilita scambio termico e velocizza i tempi di riscaldamento.

E' un termosifone minimale il cui disegno ricorda le antiche decorazioni di cattedrali romaniche e gotiche. "Mosaico", come un antico portale scolpito ed intarsiato a bassorilievo, impreziosisce con le sue decorazioni, ambienti ed architetture classiche e moderne.

A new radiator with a design reminiscent of the minimalist decor of the old Romanesque and Gothic cathedrals. Like an ancient door, carved and embossed, "Mosaic" brings classic architecture into the modern home.
